

# ETHICS

Biosciences & Researchers

“Ancient Wisdom Unveiling the Power of Ayurveda.”

# PREMIUM AYURVEDIC PRODUCTS

WHO WE ARE

# Beyond a Traditional Herbal & Research Firm

Ethics Biosciences and Researchers is a leading partner for Ayurvedic, Nutraceutical, and Herbal Cosmetics solutions.

Core expertise includes Research & Development (R&D), third-party manufacturing, white-label/private labeling, and regulatory & product consultancy.

We integrate innovation with Ayurveda principles, delivering GMP-compliant manufacturing with a rigorous focus on quality, safety, and efficacy.

## Advanced R&D Laboratory

Formulation, analytics, pilot batches

## GMP Certified Processes

Controlled, compliant manufacturing

## Customized Formulations

Tailored blends, dosage forms & claims

# Mission, Vision & Values

## Vision

To deliver science-backed herbal healthcare solutions globally.

- Global Reach
- Sustainable Sourcing
- Continuous Innovation

## Mission

Bridge ancient Ayurvedic wisdom with modern science to create safe, effective, compliant, and market-ready products.

- Quality Assurance
- Customer Centricity

## Values

We act with integrity and transparency to build long-term partnerships.

- Ethical Practices
- Excellence
- Innovation

Aligned with Ayurveda principles and GMP-compliant manufacturing

# Comprehensive Bio-Solutions for Your Brand

End-to-end support from concept to commercial launch—built on Ayurveda principles, science, and GMP-compliant execution.

## R&D & Formulation Development

Concept-to-formula research, lab trials, analytics, and optimization for efficacy, taste, and stability.

## Third-Party Manufacturing

GMP-compliant production across tablets, capsules, liquids, powders, pastes, oils, and topicals.

## White-Label / Private Labeling

Launch-ready, branded products with fast turnaround and packaging options for your markets.

## Regulatory & Documentation Support

Dossiers, COA, MFR/BMR, labeling, and claims —aligned to national and export requirements.

## Packaging & Branding Guidance

Functional packs, label design support, and premium, market-ready presentation.

## Plant Setup Consultation

Tech transfer, SOPs, equipment selection, and layout planning for efficient operations.
